

# ESAO-IFAO Webinars

Artificial Organs & Regenerative Medicine:  
Clinical Challenges - Emerging Technologies - Improved Medical Care  
Every third Thursday monthly, 12 p.m. (CET)

## Prof. Heinrich Schima

*Long-term monitoring of Cardiac Assist Devices: Important tools for patient safety, therapeutic decisions and research. The necessity of improved patient surveillance: Available and future tools.*

## Dr. Christoph Gross, MSc

*Interaction between the circulation and the pump – Beat to beat monitoring insights during exercise and daily living.*

## MS Thomas Schlöglhofer

*Interpretation and prediction of complications from routine Pump-Log-File-Recordings.*

All from: Center for Medical Physics and Biomedical Engineering  
Department of Cardiac Surgery, Medical University of Vienna
